

APhA-ASP INNOVATIVE PROGRAMMING AWARD

Student-Pharmacist Led Delivery of a Pharmacy Technician Certification Course for Local High School Seniors

Lipscomb University

Our APhA-ASP Chapter led multiple hands-on learning activities in a pharmacy technician certification course for seniors at a local high school. The programming included teaching basic pharmacy technician skills such as the dispensing process, sterile compounding, immunizations, performing point of care tests, etc.

Timeline & Planning

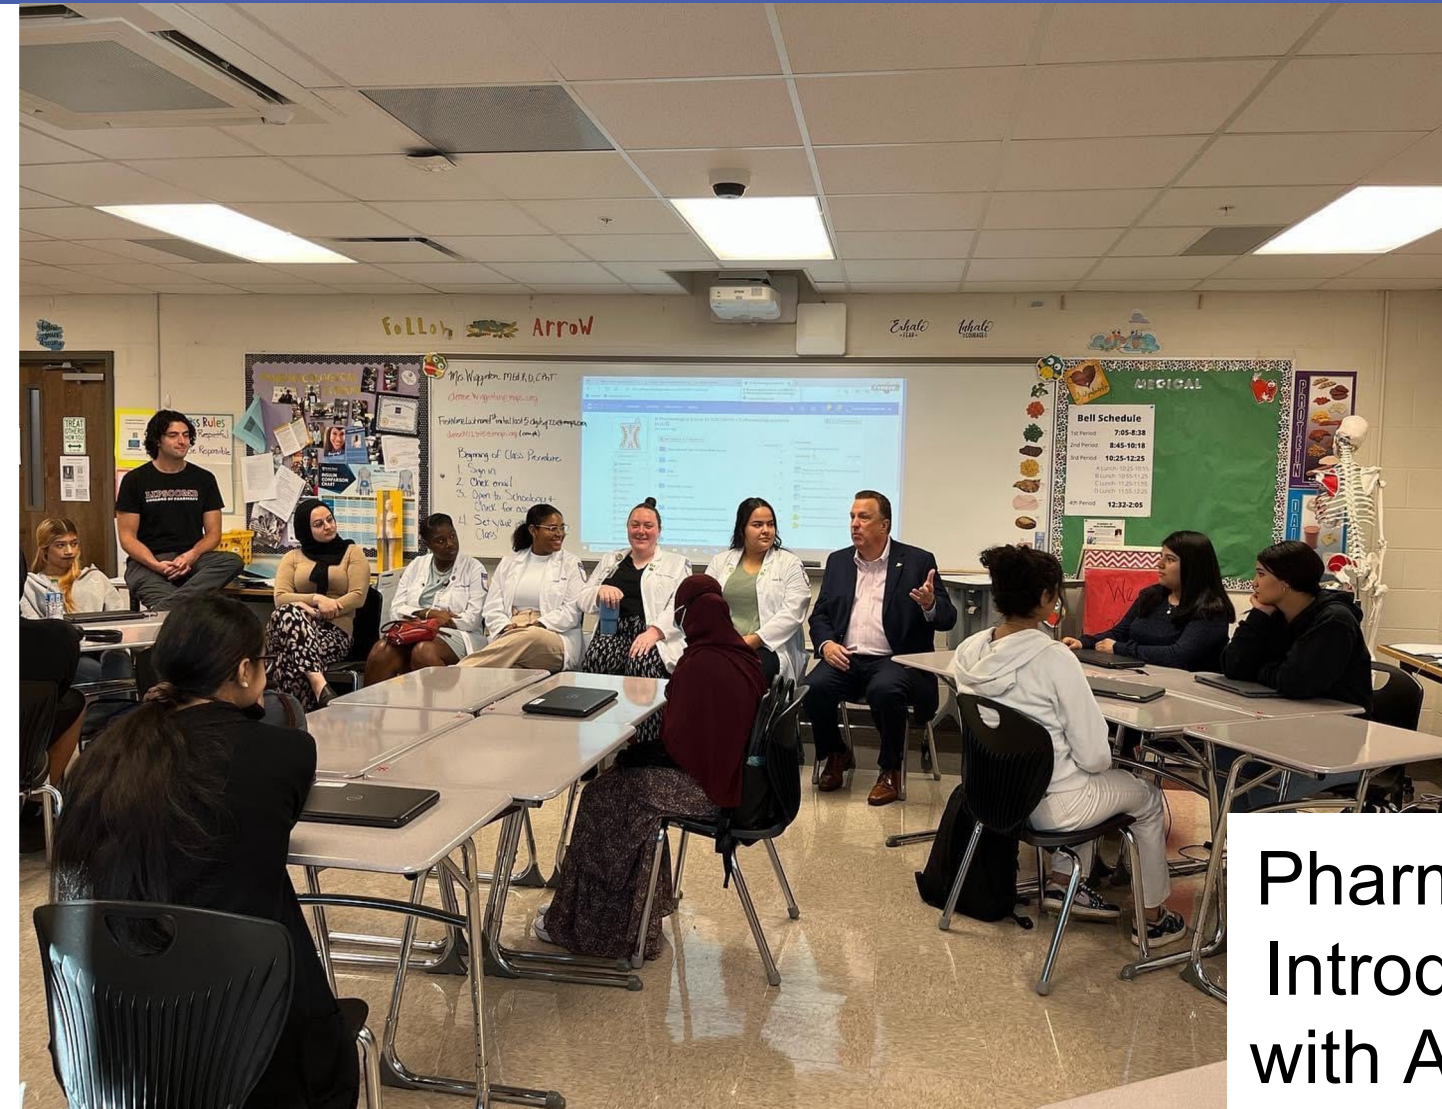

- Fall 2022:
 - Planning session
 - Dispensing Lab: Writing a Prescription From a Voicemail
 - Dosage forms lab
 - Blood Pressure Lab
 - Immunization Lab
 - Cardiovascular Capstone Patient Case

Impact & Outcomes

- 16 high school seniors participated in various pharmacy practice experiences
- 13 APhA-ASP members participated and led the labs with the high school seniors

Future Ideas

- Medication Safety Dispensing Lab
- Diabetes Lab
- Diabetes Capstone Patient Case
- Narcan Training Lab
- This partnership is ongoing and new programming will continue to be added to prepare seniors as certified pharmacy technicians and potentially future student pharmacists!
