

# Trick-or-Treat so Missoula Eats

## The University of Montana

### Description:

- In October 2020 and 2021, our chapter ran a canned food drive to be able to donate to the Missoula Food Bank. A group of APhA members went to neighborhoods around the county placing flyers on doors. These flyers instructed community members to leave donations on their porch and we would be back to pick them up a week from that date. Then a week later, we returned to all of the houses to collect the food and took all of the donations to the Food Bank.
- In 2021, we collected 166 pounds to donate!

### Timeline:

- Middle of October two years in a row

### Collaboration:

- Local Food Bank

### Which pillars of APhA does this uphold?

- **Patient Care and Community Service**
  - Directly serves the community by donating to the Food Bank
- **Connection**
  - Encourages all years of pharmacy students to work together and meet new people
- **Leadership**
  - Involvement in community based events gives more exposure to patient care projects and other leadership positions
